

Agriculture, Food Security & Sustainability

Why?

Because you will:

- Advance food security through climate-adaptive agriculture.
- Empower families toward self-supply and sustainable living.
- Encourage micro-entrepreneurship in local food production.
- Support organic composting, intercropping, and soil regeneration techniques.
- Promote environmental education and sustainable resource management.

What Can You Do?

Plant & Grow

composting, mulching, crop rotation, irrigation

Green the Land

tree planting, natural shading, intercropping

Sustainable Farming

help youth and families build resilience through climate-adaptive agriculture

Cooking & Nutrition

share healthy, creative ways to cook local garden harvests, food preservation

Good to Know.

Duration: 1 week to 1 month programs.

Accommodation: shared volunteer rooms at Omomas for €15/day incl. basic meals, or self-supply (subject to availability).

OR stay at Boscia African Farm at reduced rates.

- English speaking is mandatory.
- Agriculture, gardening, or cooking skills are especially valuable.
- You'll integrate into the team with self-responsibility.

How to Get Involved?

Send us an email at

info@boscia-farm.com |

info@pro-namibian-children.de

With subject line:

“Grow a Future – Volunteer Application”

Please include:

- Your availability (dates and duration).
- The project area you'd like to be involved in.
- Are you applying solo or as a group?
- Your preferred accommodation.
- A short note on your skills.

Small Hours, Big Impact.

Join for the Day

Not everyone can stay for weeks or months, and that's okay. Even just an afternoon at **Omomas** brings joy, creativity, and connection. Our Day Projects are designed to let you step in, share a moment, and leave behind a little more hope.

Arts & Crafts such as bracelet making, face painting, drawing activities.

Storytelling or practicing English together.
Simple learning games.

Join a soccer or netball match, or organize your own sports afternoon.

Plant a tree with the children.
Join in watering or harvesting in the school gardens.
Help with composting or small garden maintenance.

Already in Namibia? Here's How to Join
